

ADELPHI NY STATEWIDE BREAST CANCER HOTLINE & SUPPORT PROGRAM

presents a seminar

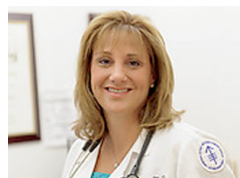

BREAST CANCER: Genetic Counseling, Genetic Risk Factors and Current Research

Wednesday, May 14, 2014 at 7:00 p.m.

at the Ruth S. Harley University Center Ballroom
Adelphi University, Garden City, NY

This seminar is free and open to the public.

SPEAKERS INCLUDE

Tiffany A. Troso-Sandoval, MD

is a board-certified medical oncologist with a special interest in women's health and in cancers that affect women, including breast, ovarian, endometrial and cervical cancers. She works as part of a multidisciplinary team that cares for women with these diseases, and sees patients at Memorial Sloan Kettering's regional facility in Rockville Centre.

Angela G. Arnold, MS, CGC

provides guidance to people on their genetic predisposition to, and risk for, cancer. She specializes in counseling women at risk for gynecologic cancers. In addition to her work at Memorial Sloan Kettering, she is an active member of the National Society of Genetic Counselors, co-chairing the International Special Interest Group as well as the Telegenetics Special Interest Group.

Two leading specialists in the field of breast cancer and genetics will address genetic counseling for inherited breast cancer and current research in the field of genetics and breast cancer.
